

Sarga Healthcare Ltd

How Logezy streamlined staffing, shifts and compliance for a growing UK care agency

AGENCY Sarga Healthcare Ltd	SECTOR Domiciliary / Home Care	LOCATION United Kingdom
---------------------------------------	--	-----------------------------------

The Challenge

Like many growing care agencies, Sarga Healthcare Ltd was managing staff scheduling, shift allocation and compliance tracking across multiple manual processes. As the agency scaled, keeping on top of day-to-day rostering while maintaining full compliance visibility (DBS checks, training records and right-to-work documentation) demanded increasing time and resource from the team.

The Solution

Sarga Healthcare Ltd adopted Logezy as their all-in-one workforce management platform, bringing staff management, shift scheduling and compliance tracking together in a single, easy-to-use system.

The Results

- ✓ Streamlined day-to-day operations across staffing, shifts and compliance
- ✓ Time saved on administrative and rostering tasks
- ✓ Improved overall efficiency across the agency
- ✓ Easier, more reliable compliance management

Sarga Healthcare Ltd also highlighted the exceptional support received from Logezy's customer and technical teams throughout their experience with the platform.

“Logezy is an excellent staffing software! It’s user friendly, reliable, and has streamlined our daily operations. Managing staff, shifts, and compliance has become much easier, saving us time and improving efficiency. Exceptional customer and technical team support. Highly recommended.”

— Sibi Thomas, Sarga Healthcare Ltd
